EDUCATION

Techno India Institute of Technology **2023–2027**
Bachelor of computer application | CGPA: 8.2/10 **Kolkata, India**
Dumdum Kishore Bharati High school **2023**
Higher Secondary (Science) | Percentage: 80%

TECHNICAL SKILLS

Programming Languages: Python, Java, C, JavaScript (React, Node.js)
Backend& Frameworks(Learning): Express.js, RESTful APIs
Database: MongoDB
Tools: Git, VS Code, Postman
Cloud Computing: AWS services

EXPERIENCE

• **Open Source Contributor - Open Source Connect Program** **July 2025 – August 2025**
Contributed to multiple open-source projects by fixing bugs, improving UI components, and enhancing front-end functionality.
Collaborated with developers using Git and GitHub, following code reviews, issues, and pull request workflows

• **AWS cloud services training program** **Techno Main Salt Lake | July - Dec 2025**
Gained hands-on experience with core **AWS services** including Compute (EC2, Lambda), Storage (S3), Databases (RDS, DynamoDB), Networking (VPC), and Security (IAM).
Developed and deployed a **group project – "Personify"**, a personality analysis web application using python flask and hosting with ec2.

PROJECTS

Ghoroa Bazar | Full-Stack Grocery E-commerce Web App | *React, Node.js, Express, MongoDB* **Jan 2026 – Mar 2026**
• Implemented user authentication, product browsing, cart system, and order management features
• Developed an admin dashboard to manage products, users, and orders efficiently
• Integrated real-time updates and secure APIs using JWT and Socket.io
• Optimized application performance by resolving production-level issues like slow loading and bugs

SevaLink Community Issue Reporter | *React, Node.js, Express, MongoDB, CSS* **Feb 2026 – Mar 2026**
• Developed a full-stack web app for reporting and tracking rural civic issues with role-based access
• Implemented complaint submission with image upload and real-time status updates
• Built RESTful APIs using Express and managed data with MongoDB
• Integrated authentication system for secure user access and task management
• Designed intuitive UI for citizens, workers, and admins to streamline issue resolution

CropifyAI - AI-Powered Crop Advisory Web Application | *Next.js, TypeScript, MongoDB, Tailwind CSS* **Sept 2025 – Oct 2025**
• Built a responsive and farmer-friendly web application
• Implemented offline support, image upload for plant disease detection, and multilingual AI chatbot integration
• Integrated Firebase Authentication and APIs to deliver secure, scalable, and real-time user experiences

CERTIFICATIONS & ACHIEVEMENTS

• **Elite Hack 1.0:** Top 100 out of 900+ teams and 7000+ participants(Finalist Certificate) **Feb 2026 – Mar 2026**
• Secured 1st position at **Smart India Hackathon Internals** at Bengal Institute of Technology. **Sept 2025 – Oct 2025**
• Front-end development , Institute of intellectual information **Aug 2023 – Oct 2024**

ADDITIONAL INFORMATION

• **Language:** English (Fluent) || Bengali (Native) || Hindi (Fluent)
• **Hobbies:** Football, open source contributions, competitive programming
